

EVAN BARCLAY

PROFILE

I'm a highly motivated 18-year-old with a passion for technology and learning. I bring a unique blend of technical expertise to the table. With proficiency in multiple operating systems (Mac OS, Windows, Linux) and programming languages (Python), I possess strong problem-solving skills and a keen eye for detail. As an avid gamer and lifelong learner, I'm excited to apply my skills and experience to a dynamic and forward-thinking career.

EXPERIENCE

Sandwich Artist, Subway; — 2024–2025 (1.5 yrs)

As a team member at Subway, I developed strong customer service skills, efficiently operating the register and preparing food while maintaining a clean workspace. I honed my teamwork abilities by collaborating with colleagues, and learned the importance of adaptability in fast-paced environments.

Tech Intern, American Fork High School; — 2024–2024(One Semester)

During my dual internship experience, I supported both IT and technical teams by assisting the IT director with Chromebook diagnostics and repair, while also collaborating with a tech teacher on a software development project. In this capacity, we successfully developed a Google App Script-based tool to organize student metadata for educators, showcasing my ability to work collaboratively and apply technical skills in a practical setting.

EDUCATION

- Utah Valley University

- Currently Attending for fall 2025

- American Fork High School

- graduated May 2025
